

EDUCATION

Bachelor in Computer Science and Engineering <i>Faculty of Automatic Control and Computer Science</i> <i>National University of Science and Technology POLITEHNICA Bucharest</i>	2025 – 2029
CCNA1: Introduction to Networks - Cisco Networking Academy	2025
Open Source Development Course - Community and Development Lab @ ROSEdu	2026

WORK EXPERIENCE

Commission Member — AcadNET National Olympiad <i>Union of Romanian Informatics Teachers (U.T.I.R.) + Hackademy</i> Bucharest, Romania	Aug 2026 – May 2026
- Construct, prepare, and test practical exam subjects for the practical Linux / Computers section - Supervised live contest execution, managed infrastructure, and took part in the grading process - Collaborate with senior volunteers and fellow passionate students to design unique and challenging subjects	
Cisco Certified Network Associate instructor - @hackademy <i>ACS UNSTPB</i> Bucharest, Romania	Oct 2025 – Jan 2026
- Teach CCNA1 certified networking courses to people of varied backgrounds - Develop and maintain course curriculums, propose exam subjects in a collaborative environment - Work together with fellow instructors to organize various activities	

HONOURS AND AWARDS

Special Mention — “Lider@5” Public Speaking Competition	2023
Mention — National Olympiad of Applied Informatics “AcadNET” (Linux)	2024
Bronze Medal — National Olympiad of Applied Informatics “AcadNET” (Linux)	2025

VOLUNTEERING

Hackademy <i>Junior Instructor</i> ACS UNSTPB	Oct 2025 – Jun 2026
Supervized and managed the organization of projects and events attended by many students - Showed initiative, offering aid in urgent situations and solving core issues - Developed many networking through interaction with the core members	
Linux Install Fest <i>Well regarded volunteer</i> ACS UNSTPB	Oct 2025
- Assisted students and introduced them into the world of Linux and Open-Source Software - Provided one-to-one assistance in setting up personalized computing environments - Offered mentorship and guidance to a diverse range of individuals with varying skillsets	

PROJECTS

Media Server <i>Deployment of a self-hosted and self-managed scalable media platform</i> phanter.site/jellyfin	Nov 2023 – Present
- Deployed and maintained a scalable self-hosted platform from the hardware layer up, optimized for low-level performance - Configured GPU-accelerated hardware transcoding and scaled resources to support multiple concurrent users	
Open Source Contributor — Unikraft Microkernel <i>Upgrading container infrastructure and restoring legacy documentation for cloud native microkernel</i> github.com/unikraft/unikraft (3.7k ★)	May 2026
- Refactored the Docker infrastructure for the project’s documentation platform under the mentorship of the lead maintainer - Recovered and updated legacy technical documentation from historical git commits to align with the modern codebase	
Censorship Circumvention <i>Using spare bandwidth to make the world a better place</i> Documentation	Dec 2023 - Present
- Deployed secure VPN routing on self-assembled hardware, providing cryptographically secure internet access - Implemented advanced packet obfuscation technologies to bypass extensive levels of blocking and censorship	
Decentralized E2EE Communication Relay <i>Deployment and federation of a secure node within a decentralized chat network</i> Documentation	2023 – 2024
- Operated a well secured federated chat server, improving performance and scalability with database optimizations - Optimized a VoIP setup using SQM QoS and efficient audio encoding algorithms	

TECHNICAL SKILLS

Languages & Markup: C, x86 ASM, Python, Bash, HTML/CSS, Markdown, L^AT_EX
Systems: Linux, BSD, Cisco IOS, ZephyrOS, Windows
Networking: Routing & Switching, TCP/IP, VPN, DNS, DHCP, QoS, SQM
Virtualization & Containers: QEMU, KVM, Docker, Podman, Kubernetes
Infrastructure: ZFS, SQLite, MySQL, MariaDB, Nginx/Caddy, Git, Github
