

EDUCATION

Bachelor in Computer Science and Engineering

Faculty of Automatic Control and Computer Science

2025 – 2029

National University of Science and Technology POLITEHNICA Bucharest

CCNA1: Introduction to Networks - Cisco Networking Academy

2025

Open Source Development Course - Community and Development Lab @ ROSEdu

2026

WORK EXPERIENCE

Commission Member — AcadNET National Olympiad

Union of Romanian Informatics Teachers (U.T.I.R.) + Hackademy

Bucharest, Romania

Aug 2026 – May 2026

- Construct, prepare, and test practical exam subjects for the practical **Linux / Computers** section
- Supervised live contest execution, managed infrastructure, and took part in the grading process
- Collaborate with senior volunteers and fellow passionate students to design unique and challenging subjects

Cisco Certified Network Associate instructor - @hackademy

ACS UNSTPB

Bucharest, Romania

Oct 2025 – Jan 2026

- Teach **CCNA1** certified networking courses to people of varied backgrounds
- Develop and **maintain course curriculums**, propose exam subjects in a **collaborative environment**
- Work together with fellow instructors to **organize** various activities

HONOURS AND AWARDS

Special Mention — “Lider@5” Public Speaking Competition

2023

Mention — National Olympiad of Applied Informatics “AcadNET” (Linux)

2024

Bronze Medal — National Olympiad of Applied Informatics “AcadNET” (Linux)

2025

VOLUNTEERING

Hackademy

Junior Instructor

ACS UNSTPB

Oct 2025 – Jun 2026

- **Supervized** and **managed** the organization of projects and events attended by many students
- Showed initiative, offering **aid in urgent situations** and solving core issues
- Developed many **networking** through interaction with the core members

Linux Install Fest

Well regarded volunteer

ACS UNSTPB

Oct 2025

- Assisted students and introduced them into the world of **Linux** and **Open-Source Software**
- Provided **one-to-one assistance** in setting up **personalized computing environments**
- Offered **mentorship and guidance** to a diverse range of individuals with varying skillsets

PROJECTS

Media Server

Deployment of a self hosted and self managed scalable media platform

phanter.site/jellyfin

Nov 2023 – Present

- Setup deployed from the ground up including **low lever hardware and drivers**
- Maintained for more than **two years** with constant updates and **patches for better performance**
- Scaled for many users with varied needs, including **hardware transcoding** for better **compatibility** and **accessibility**

Censorship Circumvention

Using spare bandwidth to make the world a better place

[Documentation](#)

Dec 2023 - Present

- Lending a **cryptographically secure** way of navigating the internet to users in disadvantaged areas
- Use **advanced packet obfuscation** technology to bypass extensive levels of blocking and censorship
- Deployed and **maintained from scratch** on personal self-assembled hardware

Decentralized E2EE Communication Relay

Contribution to a large spread out and secure chat network

[Documentation](#)

2023 – 2024

- Operated a **well secured** chat server that could intercommunicate with other nodes
- Optimized a **VoIP setup** using **SQM QoS** and efficient **audio encoding** algorithms
- Improved performance, security and scalability with **database optimizations** such as encryption and compression

TECHNICAL SKILLS

Languages & Markup: C, x86 ASM, Python, Bash, HTML/CSS, Markdown, LaTeX

Systems: Linux, BSD, Cisco IOS, ZephyrOS, Windows

Networking: Routing & Switching, TCP/IP, VPN, DNS, DHCP, QoS, SQM

Virtualization & Containers: QEMU, KVM, Docker, Podman, Kubernetes

Infrastructure: ZFS, SQLite, MySQL, MariaDB, Nginx/Caddy, Git, Github
